

Safety Brief: Incidents, Close Calls, and Injuries

Rules and Requirements

- All incidents, close calls and injuries must be reported to your foreman or superintendent.
 - This gives the company a chance to...
 - Learn from close calls and create policies that may prevent that close call in the future.
 - Treat every injury as quickly as possible.
 - Report all weekend and off work injuries or aches and pains so we can help manage your recovery and avoid aggravating it at work.
 - **Sign out at the end of each day signifying if you did or did not have an injury that day while on the job.**
 - Provide feedback and witness clarifications when you witness other workers have close calls, incidents, or injuries.
 - Take care to follow Dr.'s orders when rehabbing at home and at work.
